

THE "NEWF-SIZED" MPG WATER PLATFORM ***-Original Design and All Credit to: CANINE WATER SPORTS***

42" High -Platform top is 36" by 36"

Building Materials for 42" high platform

6 - ten ft. poles of 2" diam. white PVC #40 Pipe

2 - 36 inch by 36 inch pieces of white lattice with 1" holes. (1 full sheet will give you this plus extra)

10 - Tee joints for 2" pipe

12 - 90 degree elbow joints for 2" pipe

4 - Four way joints for 2" pipe

25-30 - 3/4" stainless steel screws for attaching lattice to pipe (pre-drill holes for screws)

1 Pint can each of PVC Primer and PVC Cement, apply with latex or rubber gloves

1 - 4' x 8' sheet of white lattice with 1" holes

10 - T Joints for 2" pipe

12 - 90 degree elbow joints for 2" pipe

4 - four way joints for 2" pipe

25-30 - 3/4" stainless steel screws for attaching lattice to pipe (pre-drill holes for screws)

6 - ten foot 2" diameter white PVC piping

Original Diagram by Deb Bender

Cut 10 ft pipe into the following pieces:

(4) at 36 inches

(2 horizontal sides, 2 horizontal bottom bars)

(7) at 30 inches (5 in top, 2 horizontal sides)

(4) at 24 inches (lower legs)

(4) at 10 inches (upper legs)

(8) at 4 inches (top Assemb to Ts)

(4) at 4 inches (attach side bar)

(4) at 3 1/2 inches (top into upper elbows)

Assemble and drill sufficient holes in pipes to immediately release air and fill with water. Smooth any sharp corners on lattice and pipes with rasp or sandpaper. Recommend adding skip-resistant paint and/or tape to top and sides-apply to top of platform and anywhere you feel extra grip would be beneficial.

Original MPG Platform designed by Deborah Lee Miller-Riley, Jackie Pariseault and Kim Gage. Photos by Deb Miller-Riley. Special thanks to Deb Bender for providing the original diagrams. All credit and original design-Canine Water Sports.

Some Photos of Completed Platform:

PLEASE NOTE:

This project's original design came from the great folks at Canine Water Sports. This is just a variation of the original designed to work with larger dogs for water training. Check them out on Facebook for more great training ideas!
